

**Position: Aircraft Maintenance Technician**

Located at Chicago Executive Airport (PWK), Aviation Maintenance, Inc. (AMI) is a Cessna-certified repair facility supporting various piston and turboprop aircraft. We are seeking a piston aircraft maintenance tech for an immediate opening.

Minimum Requirements:

- Current FAA A&P Certificate- *Inspector Authorization (IA) rating is preferred but not required*
- General Aviation experience (light aircraft) or recent graduate of an accredited maintenance program
- Basic knowledge of aircraft mechanical component troubleshooting, repair procedures and replacement of parts
- Working knowledge of technical publications in computer and paper form
- Technician will receive guidance, as required, from supervisor or higher-level technician
- Logbook entry and record-keeping experience a plus

Details:

- Pay rate based on experience level
- Full and/or part time positions available
- Flexible work schedule with occasional weekend on-call
- Benefits available after 90-days (Health & Dental)

AMI is an equal opportunity employer and maintains a drug free environment.
